

Dylon Soft Fabric Paint Instructions

Unlike other fabric paints, DYLON fabric paint remains soft even when dry.

Just use a stencil, a paintbrush or even a stamp. Whatever you decide, just iron once dry to have a design that will last as long as your T-shirt.

PRODUCT INFORMATION

- Suitable for all washable fabrics.
- Gives permanent colour.
- All paint colours are fully intermixable
- Fabric returns to original softness after washing.
- Dylon Fabric Paints are available in three different effects: Standard, Metallic and Colours for Dark Fabrics.

COLOUR RANGE - 25ml JARS

Colours: White, Black, Dark Brown, Green, Navy, Royal Blue, Turquoise, Deep Pink, Purple, Red, Yellow.
Metallic: Gold, Silver, Bronze.
Dark Fabrics: Yellow, Red, Blue, Green.

COLOUR RANGE - 500ml BOTTLES

Black, White, Yellow, Green, Royal Blue, Red.

INSTRUCTIONS

1. Wash and dry chosen garment.
2. Place a protective backing (such as card or thick paper) underneath the design area.
3. Shake bottle.
4. Paint onto fabric using a soft brush.
5. Allow to dry.
6. To fix the colour, cover the painted area with a clean cotton cloth and iron on a very hot setting for 1-2 minutes. Fix between layers if you are painting more than one coat.
7. The fabric returns to its original softness after washing.

Tips for using Fabric Paints

- The basic colour range works best on light coloured fabrics. If using on dark fabrics, apply one or two layers or white paint first, fixing between each layer.
- The 'Fabric Paints for Dark Fabrics' contain higher levels of pigment and are especially formulated to give bright colours on dark fabrics.
- Metallic colours give excellent results on both dark and light coloured fabrics.
- For an unlimited range of lighter shades mix with white paint.
